

New! 1929 Spanish home with 6 bedrooms, 3 baths, and a beautifully landscaped 13,695 sq. ft. lot with pool and spa.

In 1929, from Architect Harry Hayden Whitely's design, this exquisite Spanish Colonial Revival was completed with the best materials available at the time. From the magnesite entry to the beamed living room ceiling, the original charm is present throughout this 2-story home. Featuring 6 bedrooms and 3 baths, there is also a spacious kitchen with breakfast room, formal dining room that opens onto a covered patio, living room with fireplace, a basement, and more. The master bedroom is a peaceful retreat with a balcony overlooking the front yard, dressing room with vanity and closet, and spacious bath with separate tub and shower. From every room there are views of the drought-tolerant landscaping, enhancing the California lifestyle. Gracing the corner of Hill Drive and Vincent Avenue in the heart of what is known as the Bel Air of Eagle Rock, the 13,695 square foot lot is surrounded by a wrought-iron fence and gate, enclosing the 3-car garage, pool and spa, and several patios for dining, lounging, and entertaining.
