

1408 Highgate, Highland Park, 90042

New! Modern home in the hills of Highland Park with 3 bedrooms, 2 baths, plus a finished garage. We love the modern look of the updated kitchen and baths, refinished hardwood floors, open kitchen/dining/living rooms. A real plus is the true master bedroom with its own bath. The newer systems, including central air & heat, make life worth living in the changing LA seasons, and the finished garage gives options for a person cave, rumpus room, studio--or even use it to park your cars as intended! Most of the updated homes in Highland Park are in the more urban York/Figueroa areas where it's too busy and noisy for some. But you can be at Cafe de Leche in 5 minutes, yet feel like you are so far away from it all here, tucked up in the hills with the birds and practically no traffic. You can have the best of both worlds right here! For a floor plan, [click here](#). For a list of features, [click here](#). For a 3D tour of this home, [click here](#). For a 3D tour of the garage, [click here](#). Open house on Tuesday, October 11, 11-2pm; and Sunday, October 9, 2-5pm
