

6401 Ruby Street, Highland Park, 90042, Highland Park

Sold! We helped our client purchase this unique historic building in Highland Park.

Sold! This property was a real treat to be a part of. Our client came to us interested in buying this to turn into the headquarters for her business after renting several offices in Northeast Los Angeles. This was the first time this building had been on the market for over 50 years, previously being used as the clubhouse for the Danish Soldiers Society and originally built as one of the first public libraries in the neighborhood. We are so excited to see how our client transforms and updates this incredible property!
